    - 461: Programming in HTML5 with JavaScript and CSS
    - 462: Developing ASP.NET MVC Applications
    - 463: Developing Windows Azure Cloud Services
    - 464: Developing Windows Azure Z-Infrastructure

- **Server**
  - Database
    - MTA (IT Infrastructure)
    - 461: Managing Office 365 Identities and Requirements
    - 462: Managing Office 365 Services
    - 463: Managing Office 365 Apps

- **Productivity**
  - Office 365
    - MTA (IT Infrastructure)
    - 461: Implementing Office 365 Identities and Requirements
    - 462: Implementing Office 365 Services
    - 463: Implementing Office 365 Apps

- **Database**
  - SQL Server 2012
    - MTA (IT Infrastructure)
    - 461: Installing and Configuring Windows Server 2012
    - 462: Installing and Configuring SQL Server 2012
    - 463: Implementing Advanced SQL Server 2012 Services
    - 464: Implementing SQL Server 2012 Services

- **Application Lifecycle Management**
  - Visual Studio 2013
    - MTA (IT Infrastructure)
    - 461: Designing and Implementing a Team Foundation Server
    - 462: Implementing Data Warehouse with SQL Server 2012
    - 463: Implementing Data Warehouse with SQL Server 2012

- **Application Environments**
  - Windows Store Apps
    - MTA (IT Infrastructure)
    - 461: Developing Windows Store Apps for Windows 8
    - 462: Developing Windows Store Apps for Windows 8
    - 463: Developing Windows Store Apps for Windows 8

**Certification Destinations:**

- **MCSE**
  - Enterprise Devices and Apps
  - Desktop Infrastructure
  - Server Infrastructure
  - Private Cloud
  - Communications
  - Messaging
  - Sharepoint
  - Data Platform
  - Business Intelligence
  - Windows Store Apps Using HTML5
  - Web Applications
  - SharePoint Applications
  - Application Lifecycle Management

**Azure Specialist Exams.**

Microsoft Azure provides cloud services with best-in-class flexibility, security and reliability to more than half of all Fortune 500 companies. Azure's increasing popularity is generating demand for top-notch technologists who can deliver its full spectrum of benefits. If you're already experienced with Azure, you can expand your skills to meet future business needs with three Specialist certifications. Couple one (or more) of these Azure specialties to an existing developer, IT professional, or database professional certification or let your Azure specialty stand on its own.

**Exam 522:** Developing Microsoft Azure Solutions

**Exam 523:** Implementing Microsoft Azure Infrastructure Solutions

**Exam 524:** Architecting Microsoft Azure Solutions

**Michigan Technology Associate**

Microsoft certified training centers and exams that help prepare individuals for professional certification.

**Microsoft Office Course and Exam Member**

Microsoft training courses are available through the Microsoft Learning Partner worldwide. Fees are available at Pearson VUE and center-wide. To register for an exam on or for additional training options, please visit www.microsoft.com/learning.

**Microsoft Certified Solutions Associate**

MCSD certifications outline core skills and experience to achieve MCSD certification.
